

Give your cockpit 3-D vision.

AV80R 3D. The Portable MFD with 3-D Synthetic Vision.

Bendix/King adds a new dimension to situational awareness—AV80R 3D, the affordable and portable cockpit information system. Its touch-screen, multi-function display (MFD) delivers a realistic VFR view no matter what the conditions are beyond the cockpit window—through dynamic, synthetic 3-D imagery. Visit our website to see the 3-D advantage for yourself.
