

heavy-iron déjà vu

The new Primus® Apex.

Feels like something you've seen before. *Flies like it too.*

Integrated autothrottle, INAV graphical flight planning with sensor overlays. They're the kind of pilot-friendly features you see over and over again in heavy-iron cockpits. But now they're available for turboprops and light jets. Introducing the new Primus Apex integrated cockpit. Experience it for yourself. *Engage Safety.*
