

engage productivity

The only thing you leave behind is the ground.

Business doesn't stop when you're in the air. And it doesn't have to. We equip cabins with the latest technology available on the ground or in the air—High-speed Internet (with WiFi), phone and fax, satellite radio and TV, BlackBerry® smartphone connectivity—all with intuitive passenger controls. Making flying more productive. Just another way our products and services enhance the overall flying experience. Looking to stay connected when you fly? *Engage Honeywell.*
