

over and above

Honeywell Resins and Chemicals is a leader in specialty markets – including caprolactam, cyclohexanone, ammonium sulfate fertilizer and specialty resins. Built on a solid past, strong manufacturing capabilities and a broad product portfolio, Honeywell Resins and Chemicals remains loyal to our promise of uncompromised quality and strong customer support in all of the markets that we serve.

And because we are Honeywell we extend the quality, consistency, global reach and accessibility that you have come to expect with all of our products. Take a look at the new Honeywell Resins and Chemicals.
